Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 3632

This is the second office action for serial number 10/065,872, entitled Harrison Free Standing Towers and Missile Defense System, filed on November 26, 2002.

Response to Amendment

The reply filed on January 3, 2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): all of the new sentences, figures, or details that were not in the original specification have not been underlined within amended specification. The applicant should not present the amendment in the format of a patent which has been printed with columns and rows. Any additions made to the specification should be underlined and any deletions should only have one bracket [at beginning of the deleted portion and one bracket at the end of the deleted portion]. The applicant has provided double brackets "[[or]]" for deleted portions which is not proper. The figures provided are new matter and should not be entered into the application. Any description pertaining the figures should be underlined since the figures were not apart of the originally submitted specification. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which

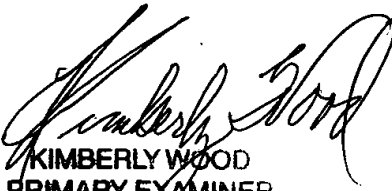

Art Unit: 3632

to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
